

Team Meeting Agenda 4/24

- Zero Feature Release
 - Define our goal
 - Problems?
- Push Rules
- Testing
- Feedback / Open Table for discussion

Notes:

Push Rules: Commit, Pull, Test (run test suite), Push. RUN ENTIRE TEST SUITE BEFORE PUSH

Testing: Write JUnit 3 test case and add to test suite... RUN ENTIRE TEST SUITE BEFORE PUSH

Davis will upload Starter test suite, --be patient, it is not as easy as you would think.

Colleen setting up Login to cloud DB

Will creating login page and menu for help

Lawrence adding map

ZFR goal – We will need to connect to both databases, add test items to database, be able to log in, display some items, have a map, and display a help window.... With minor content

Javadoc and comment all code you write, preferably before pushing.

When dealing with the repository, if you are unsure about anything, wait and ask before affecting 4 other people
